RV College of Engineering®, Bengaluru – 59
Department of Artificial Intelligence and Machine
Database Management Systems (CD252IA)

Synopsis

TITLE		
TEAM	USN	Name
	USN	Name

1. Introduction

(Brief Introduction about the Project)

2. Existing System

(Describe features of existing system)

3. Proposed System

(Describe features of proposed system and how it is different from existing system)

4. Relational Database Structure

(Structure of Relational data stored- Describe what data is considered and designed using Relational data model aspects)

5. RDBMS AND NoSQL Integration

(Describe, what data is considered and maintained using NOSQL and how RDBMS data and NOSQL data is integrated in your project)

6. Societal Concern

(Describe what aspect of societal concern is related to your project and any additional recent technological trends used (AI, ML, VR, AR, NLP, Block chain, OCR etc.))

Note: (Synopsis should be maximum of 2 pages)
